

# Tally Ho

You often use a tally chart to record data. To make the tallies easy to count, they are put in groups of five. Every fifth tally is put as a stroke across the other four.

Watch a game of softball (live or TV) and complete a tally chart like the one below.

ACTIONS	TALLY	TOTAL
Hits		
Fouls		
Strikes		
Balls		
Homeruns		
Catch from hit		
Outs on base		

Make a bar chart to display your results and write any interesting findings in the game you watched.
