TIED TEAMS

At all national tournaments where there is a tie for a Championship, then such Championship shall be decided by playoffs as necessary, except where time does not permit.

1. **Championship Playoffs**

Used only to find the NZ Tournament champion team

- a. If two teams tie the playoffs is a simple one off game
- b. If three teams tie use the Tied Team Formula to find the top team to play the winner of the match between the other two teams to find the NZ Champion.
- c. If four teams tie, use a straight knock out starting 1vs4, 2vs3; these seedings should be found by using the tied team formula.
- d. Should time permit the playing of one game only, then this shall be between the top two seeds (placed by use of tied team formula)
- e. Where time or weather do not permit a play off for the championship, the round robin results may be used to determine the champion team
 1. If round robin not completed and tied teams have played each other use tied team formula (2a) to separate two tied teams or (2b) to separate three or more.
 2. If round robin not completed and tied teams have not played each other use the results from an equal number of completed games and apply the tied team formula (2b 1 and 2)
- f. Playoffs for all places, except NZ Championship for promotion, relegation and grading purposes shall be decided by the tied team formula.

2. **Tied Team Formula**

- a. If two teams tie the result of the game LAST played between them then the winner is placed above loser. "Who beat who"
- b. If three (or more) teams tie for any position and cannot be graded by the method in (2a) above then the following methods are to be used in determining placings:
 - ie. If one has not beaten all others
 1. Calculate the run ratio of games played between the tied teams, grading them from highest to lowest
 2. Where teams can be separated and ranked as in 2b1 that ranking holds. For teams still tied after 2b1 and unable to be separated as in 2a calculate the ratio of runs scored in all games played in the round robin by the teams that cannot be separated.
 3. If three or more teams still have the same run ratio, rank them in order of the total runs each team scored in the round robin.

Note: The run ratio (i.e. Runs for divided by runs against), is calculated on the runs scored at the last completed even innings, except that if a team batting second wins in a partly completed innings (one run) that innings may be counted.

3. **Responsibility**

The Tournament Organiser, SNZ Board Representative and Chief Scorer are responsible for any decision necessary to place tied teams.
